LEADING LEADERS YOU SHOULD KNOW ABOUT

Rishab Puri & Sameer Narang,

Co-founders - Indigrid Technology Pvt Ltd

Founded in 2016 by visionary entrepreneurs Sameer and Rishab, Indigrid Technology is redefining India's electronics manufacturing landscape through innovation-led growth and engineering excellence. With a cumulative Series A investment of ₹115 crore, the company has rapidly scaled its operations from one manufacturing facility to three, strengthening its capabilities across automotive and consumer electronics.

Founded in 2016 by visionary entrepreneurs Sameer and Rishab, Indigrid Technology is redefining India's electronics manufacturing landscape through innovation-led growth and engineering excellence. With a cumulative Series A investment of ₹115 crore, the company has rapidly scaled its operations from one manufacturing facility to three, strengthening its capabilities across automotive and consumer electronics.

Operating across Build-to-Print, Design-Led Manufacturing, and Original Design Manufacturing (ODM), Indigrid's vision transcends standard assembly—it aims to position India as a high-quality global hub.
